R1280T

Bookshelf Speakers

42W RMS total power output

4"

Mid-range and bass

0.5"

Treble

Classic wooden enclosure

Easy control

Dual RCA inputs

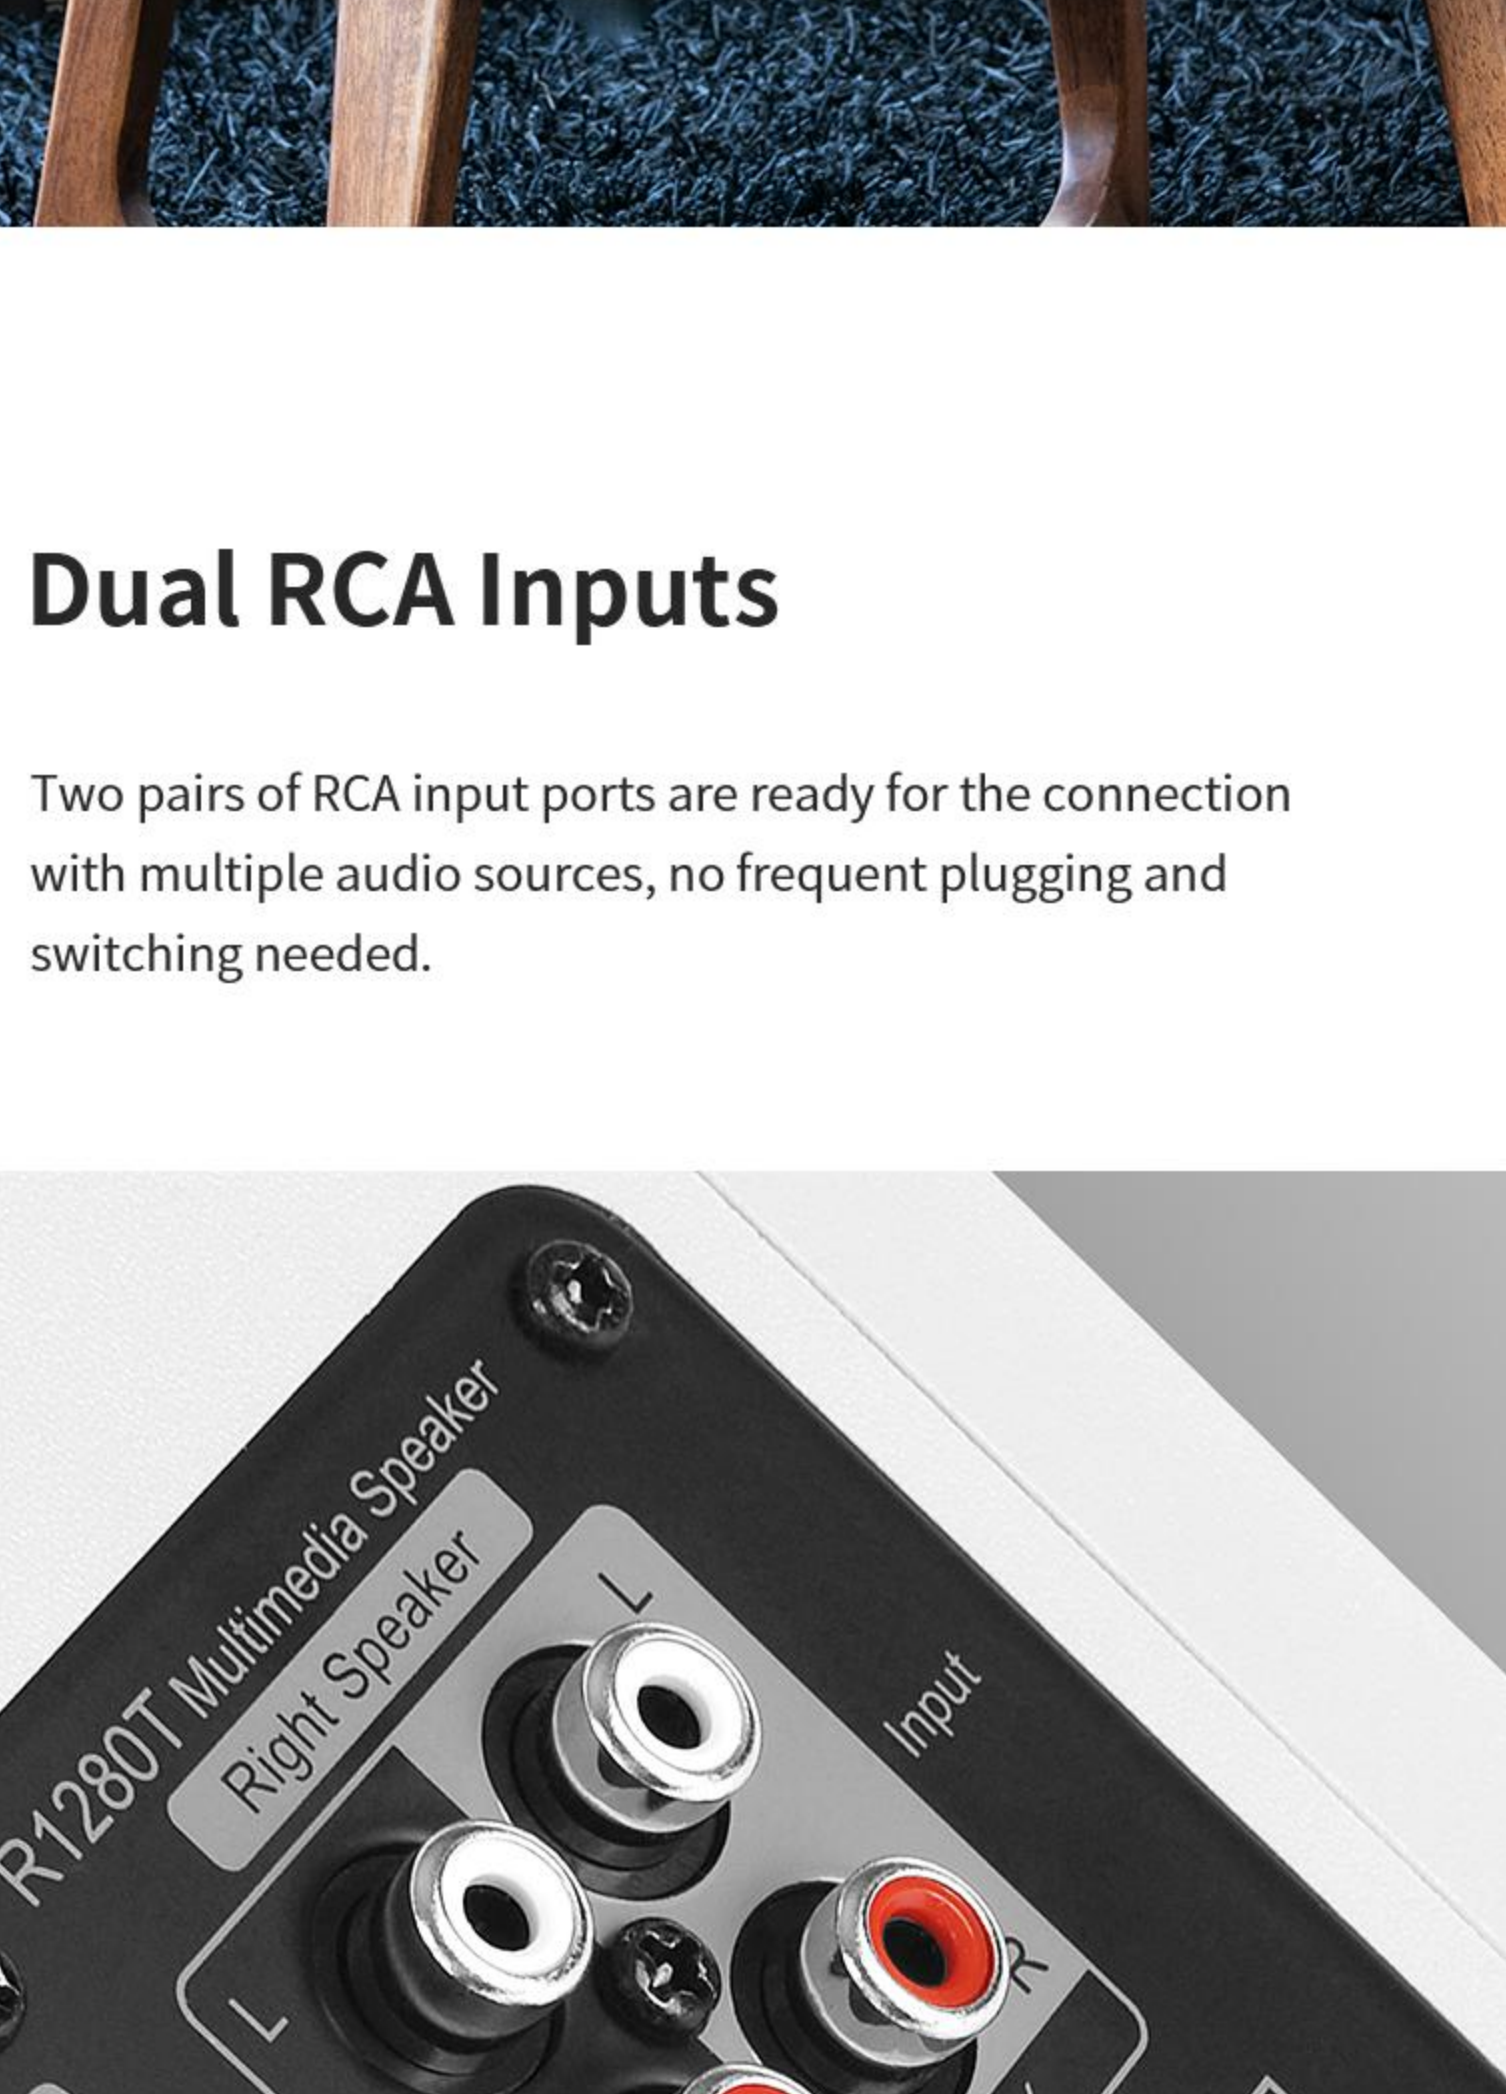

Room-filling Sound

With 4 driver units, this product can produce 42 watts (RMS) output power, best fitting any space in your house for a great listening experience.

Quality Sound Performance

With the enrichment of 2-way active crossover control, this product is perfectly tuned to satisfy your pursuit of quality sound. Two 4-inch mid-range / bass drivers create rich lows. Meanwhile, two 0.5-inch silk diaphragm treble drivers produce crisp highs.

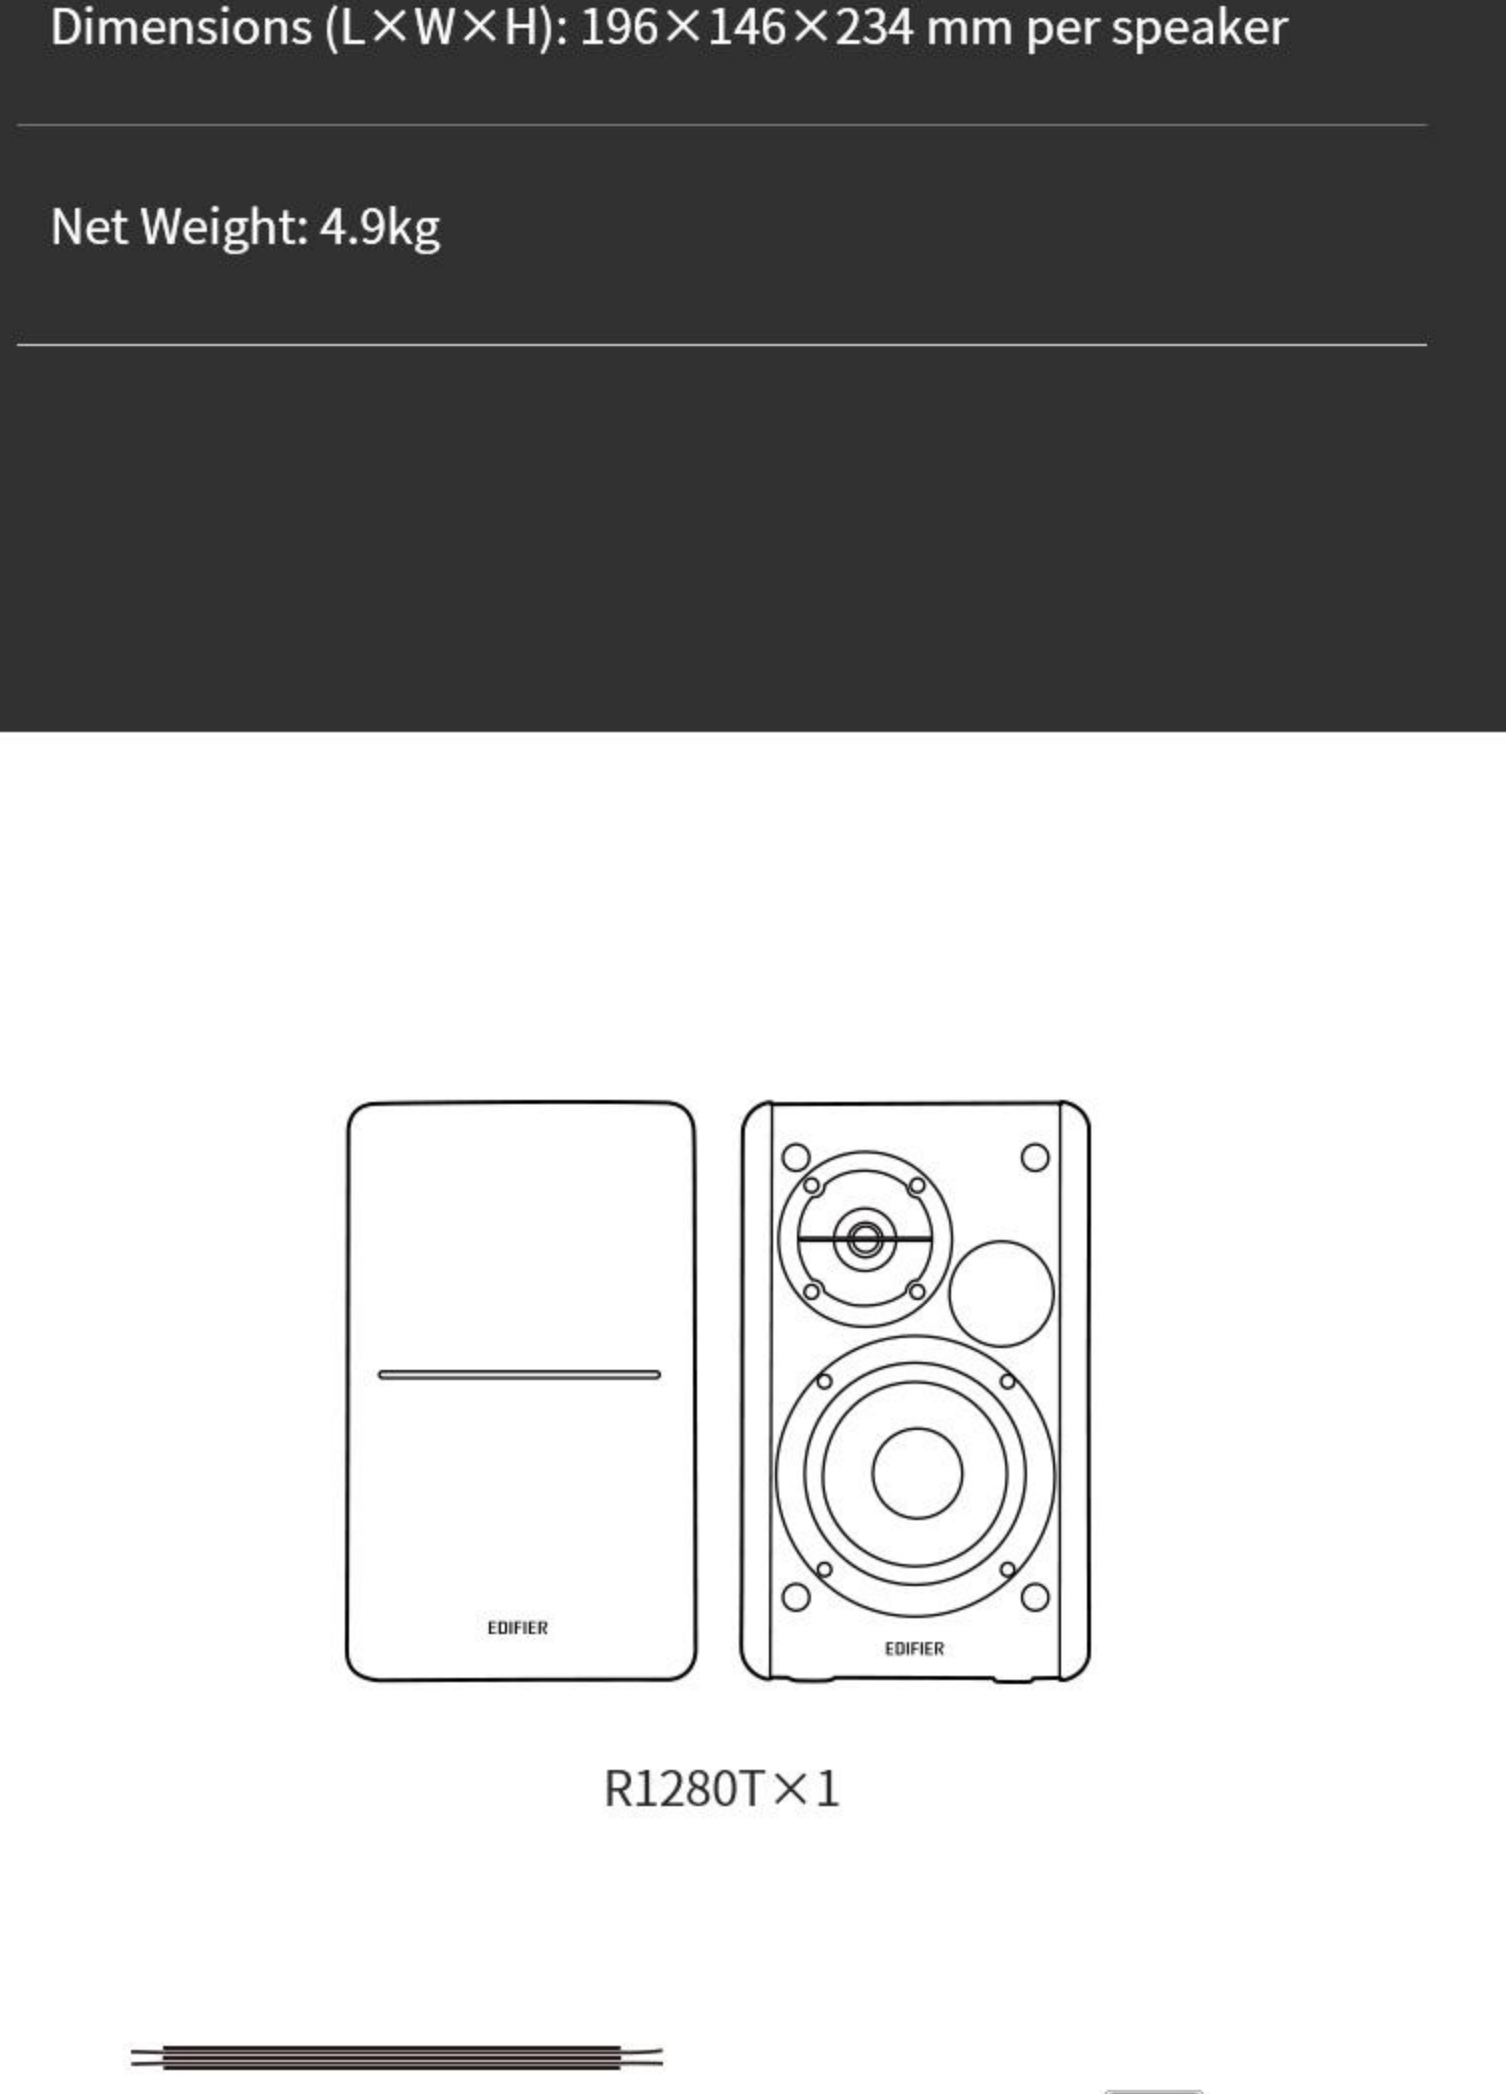

Classic Wooden Enclosure

Quality wooden enclosure minimizes acoustic resonance and further reduces distortion. The classic design complements any home decor as well.

Dual RCA Inputs

Two pairs of RCA input ports are ready for the connection with multiple audio sources, no frequent plugging and switching needed.

Easy Control

Use the remote control and knobs on the right panel for easy control of full functions.
