

1. Unpacking

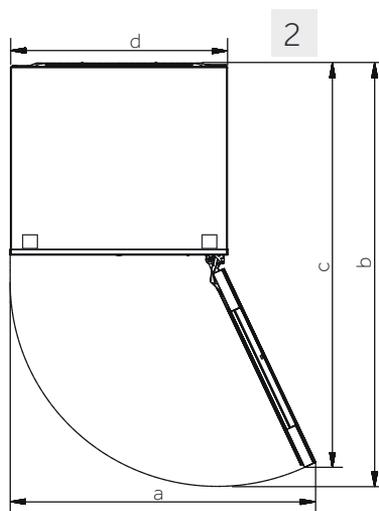

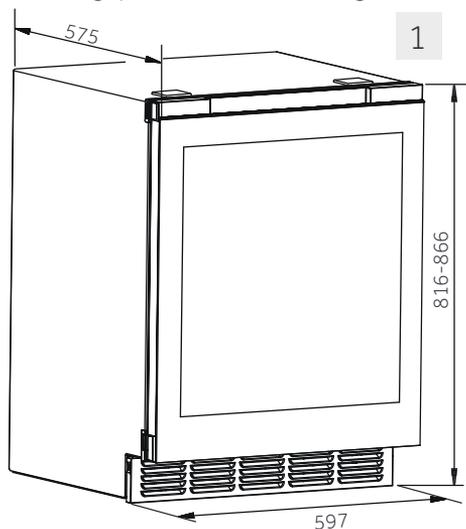

- ▶ Take the appliance out of the packaging.
- ▶ Remove all packaging materials including the foam base and all adhesive tape holding the accessories.

2. Environmental conditions

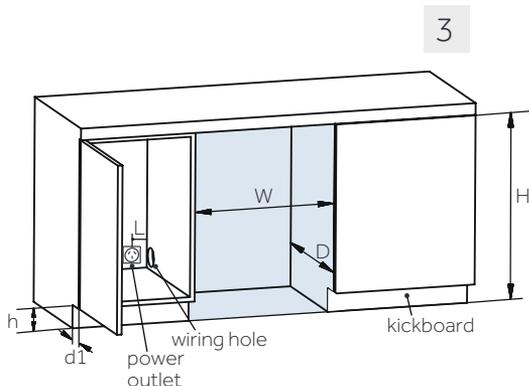

The room temperature should always be between 10 °C and 38 °C, since it can influence the temperature inside the appliance and its energy consumption. Do not install the appliance near other heat-emitting appliances (ovens, refrigerators) without isolation.

3. Space requirements

Required space to open the door (Fig. 1,2); For safety and energy reasons, ensure that the top gap of the appliance is at least 4 mm, the left and right side gap is at least 1.5 mm, and the back gap is at least 10 mm(Fig.3).

Measurement: mm	HUC44GDEH1
a	714
b	1905
c	1900
d	597

Dimensions for appliance installation:
 $W \geq 600\text{mm}$
 $D \geq 585\text{mm}$
 $H: 820-870\text{mm}$

cabinet kickboard dimensions:
 $h: 100-150\text{mm}$
 $d1: 50-100\text{mm}$

Required clearance of power outlet
 from side wall:
 $L \geq 100\text{mm}$
